
Conference 2016

Join us for the 2016 WFRN Conference on *Careers, Care, and Life-Course "Fit:" Implications for Health, Equality, and Policy*. The conference will be held from **June 23-25, 2016** at the Capital Hilton Hotel in Washington, D.C.

The 2014 conference was a huge success! There were over 750 presenters and 200 sessions that discussed the latest research on *Changing Work and Family Relationships in a Global Economy*. About 40% of the attendees were from outside the US, and represented more than 40 countries. Like our previous conferences, we expect that the 2016 conference will draw many global attendees in addition to providing numerous opportunities for networking and sharing ideas with colleagues.

Who We Are

The Work and Family Researchers Network (formerly the Sloan Work and Family Research Network) is an international membership organization of interdisciplinary work and family researchers. The WFRN also welcomes the participation of policy makers and practitioners as it seeks to promote knowledge and understanding of work and family issues among the community of global stakeholders.

The WFRN facilitates virtual and face-to-face interaction among work and family researchers from a broad range of fields and engages the next generation of work and family scholars. As a global hub, we provide opportunities for information sharing and networking via our website.

Your support will help to advance, promote, and preserve interdisciplinary work and family scholarship and move the field forward.

Why WFRN?

The Work and Family Researchers Network was formed in response to the need for a membership association of interdisciplinary work and family scholars. Unique among professional societies, the WFRN provides an online peer-community with tools to strengthen connections between the global audience interested in work and family.
